

625 Barrier Polythane

Proven, no compromise durability

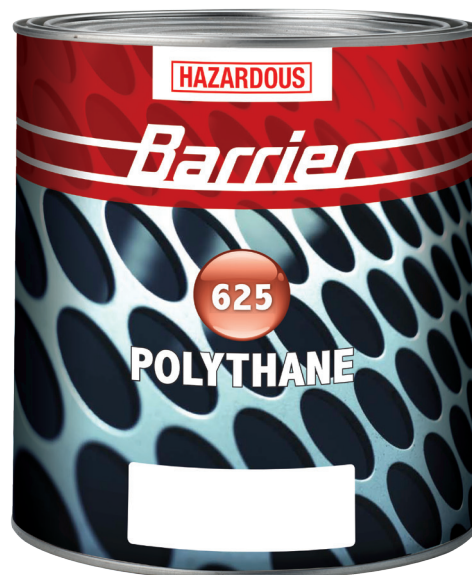

When outstanding protection for your valuable business assets is an absolute necessity, the number one choice is **625 Barrier Polythane** from PPG Light Industrial Coatings.

For the mining industry, agricultural machinery, plant and equipment, marine service or any other application where exceptional durability is crucial, this ultra-tough two-pack polyurethane direct gloss topcoat provides superior performance. What's more, by retaining excellent gloss and colour over the long term, it keeps your valuable equipment looking great while enhancing the image of your business.

- The latest tried and trusted product technology
- Excellent resistance to mar, alkali and harsh washing
- First-class abrasion resistance
- Superb colour and gloss retention – protects the appearance of your equipment long into the future
- Superior opacity
- Simple to mix, with convenient 2:1 hardener and 'high coverage' 4:1 hardener options
- Easy to apply using either conventional or airless spray equipment
- Extensive colour selection – AS2700 and RAL Classic colours available

PPG Primers

625 Barrier Polythane combines perfectly with the versatile selection of easy to use, high performance PPG Light Industrial Coatings priming solutions which provide a solid foundation over virtually any substrate. *Note: Not all primers are compatible – contact the LIC Technical Support Team for advice.*

PPG know-how and support

Nothing beats the ability to get expert assistance when you need it. The Light Industrial Coatings Technical Support Team is just a phone call away and they will be happy to help you choose the correct products for your application and provide technical advice.

Locally made for local conditions

Because it is manufactured in Australia under strict quality control, **625 Barrier Polythane** has been specifically tuned to provide superior performance under local conditions.
